BRINGING PEOPLE BACK TO NATURE SINCE 1954

Welcome to 2020
Welcome to the first 4 **** Outdoor Camp in Denmark. At Camp Møns Klint, we are eager for adventure, fantasy, and exceptional nature experiences but also a will and desire to discover and explore the unknown. Here, in the middle of the wild, Danish nature, you will find possibly the best outdoor campsite in Denmark. At Camp Møns Klint you will find endless ways to realise your dreams of unique experiences in nature – both on-site and in the surrounding landscape. Staying at the scenic Camp Møns Klint is an attraction in itself. The undulating landscape with magnificent views across cliffs and sea, winding and undulating landscapes with pastures and forests was created during the Ice Age. Here, nature is experienced not only at close quarters; we also live in it.

A big part of being out and about in nature is to be astonished, to be amazed, and at the same time feeling connected to something much bigger than yourself. We practice the art of getting lost, so that we find our place in the world in the middle of the wilderness. We live in a hectic, modern ever-changing world. A world, where many children and adolescents grow up without ever getting the opportunity to light a fire, put up a tent, or pick wild berries in the forest. We need the wilderness. Countless generations have shared their stories over the crackling flames of the campfire while gazing at the night sky and the constellations. To some these experiences do not matter, but we think they help shape our understanding of nature.

WITH US, YOU CAN GET LOST – BUT YOU CAN ALSO FIND YOURSELF
The camp site is situated in a large nature area with natural boundaries and terrain differences. This gives us the opportunity to provide our guests with the freedom and space, which most people value highly. Upon arrival, you have the opportunity to be in on the choice of your camping spot. The spots are not compartmentalized, but fit naturally into the terrain. There are several outstanding areas at the site, both for motorhomes, caravans and tents. For campers with tents arriving by car or bike, we offer the finest tent sites in natural surroundings. Here you will find peace and quiet, with facilities close by. The site has won several international and national awards for its concept and innovation.

In the only Dark Sky Park in Denmark you can experience the clear and densely packed starry sky above Møn and Nyord. You can observe many a shooting star crossing the Milky Way. You can see the constellation and nebulae up between the stars. Time for contemplation and wonderment with the hooting of the owls in the tall trees as the only soundtrack. Warm yourself at a nice campfire and be amazed.
FLOWERS HERBS AND
THE ROUTE TO NOWHERE

Welcome to a world of colours, welcome to our flower and herb field. It is located
at the western end of the site behind the lake. Pick a bouquet for your wife, your
girlfriend or eat of the herbs straight from the field. But - if you want to enjoy the ex-
perience, you have to help with weeding and watering. Then wander thru the fields
and forest and find your route to nowhere. Dare to get lost and find yourself.
